Society of American Military Engineers - Joint Engineer Training Conference & Expo

May 23-25, 2017, Greater Columbus Convention Center

| Speaker/Moderator | Session | Description | Day | Room | Time |
|---------------------|--|---|--------|----------|------------|
| Maj. Gen. Tim Byers | Deployment Engineering | The session will provide an overview of how the 1st Expeditionary Civil Engineer Group supports the daily missions of the U.S. Air Forces Central Command. | May 23 | C151 | 3:20 p.m. |
| Melissa Cary | Fence to Fence Programmatic Successes | The session will provide real-world examples that illustrate the challenges, successes, and lessons learned on programmatic approaches and enhanced delivery of Air Force fence-to-fence contracts. | May 23 | C162 A | 3:20 p.m. |
| Jessica Wollmuth | Navigating the New Hazardous Waste Rules | The session will provide a summary of EPA's new RCRA rules and identify the biggest implications and potential pitfalls. | May 24 | C162 A | 2:45 p.m. |
| Frank Miyagawa | Beyond Theory, Learning from Real-World Microgrid Projects | The session will provide an overview of case studies on several different microgrid projects from preliminary studies and planning, to design guides and completed projects. | May 24 | B233-235 | 4:15 p.m. |
| Col. John Mogge | Professional Registration, Simplified | The session condenses the entire professional registration process into ten easy to follow steps. | May 25 | B230-232 | 11:00 a.m. |
| Jessica Wollmuth | Best Practices for Building Resilient Supply Chains | The session will explore a comprehensive framework to assess supply chain resiliency, protect against supply chain disruption and minimize consequences to local communities and national security. | May 25 | B246 | 1:45 p.m. |
| Kristine Hargreaves | Applying Corporate Design Trends to ISR Facilities | The session covers the application of workplace design trends in ISR operations centers to provide a flexible, secure, healthy and effective work environment. | May 25 | B230-232 | 1:45 p.m. |
| Maj. Gen. Tim Byers | Where's the Beef? Food Waste Lowers Energy | The session will focus on Water Resources Recovery program goals, decision-making processes and final design elements that made the cut - including food waste. | May 25 | B233-235 | 1:45 p.m. |
