

Providing solutions for the world's changing waterways.

With 150 years of experience connecting land and sea, Jacobs has navigated some of the world's most complex maritime programs to keep people and goods moving. We understand the industry and how it's evolving.

Reimagining The Ports of Tomorrow

Jacobs provides value-added consulting, planning and engineering services through the long-term, trusted relationships we've formed with clients around the globe, including port authorities, government agencies, private developers, cargo terminal and cruise operators as well as some of the world's leading naval forces.

Our more than 500 in-house, global ports and maritime professionals are committed to using our knowledge and experience to provide our clients with local solutions. As one of the industry's largest and most highly-ranked ports and maritime consultants in the world, we continually earn this recognition one project at a time by helping our clients achieve their missions, realize value from their assets, and deliver results that meet the expectations of their stakeholders.

Primary Markets We Serve

With our ports legacy spanning back more than 150 years, Jacobs remains at the cusp of ports, maritime and coastal engineering, developing specialized solutions that advance business, stakeholder and community goals. Our primary markets include:

Containers	Oil, Gas & Chemicals	Dry Bulk	Break Bulk Ro/Ro and General Cargo	Cruise & Ferry	Shipyards
Coastal Infrastructure	Asset Management & Evaluation	Military & Defense	Resiliency	Urban Waterfront & Marinas	Intermodal Rail

About Jacobs

At Jacobs, we're challenging today to reinvent tomorrow by solving the world's most critical problems for thriving cities, resilient environments, mission-critical outcomes, operational advancement, scientific discovery and cutting-edge manufacturing, turning abstract ideas into realities that transform the world for good. With \$14 billion in revenue and a talent force of more than 58,000, Jacobs provides a full spectrum of professional services including consulting, technical, scientific and project delivery for the government and private sector.

Delivering Innovation Across the Ports & Maritime Industry

Container

APM Terminals Moin Container Terminal
